

UTILITY BILLING

QS/1®'s Utility Billing software provides comprehensive management of water, gas or electric utilities. Powerful, yet easy to use, QS/1 enables you to link meters to accounts, accept payments electronically via the Internet, IVR or bank drafts and post them immediately. Conduct endless rate-code studies with robust reporting tools. And, it integrates with QS/1's Accounting Suite for a complete solution.

Flexible Payment Options

QS/1 provides flexible payment options, including automatic Internet payments, IVR, bank drafts or lockbox files, which eliminate data entry and reduce errors. Payments are posted immediately, so your accounts are always current. Our fully functional, integrated Point-of-Sale system and Centralized Collections enable the management of payments to multiple applications and accounts.

Information at Your Fingertips

QS/1 organizes and stores data so you can always find information when you need it. Meters are linked to accounts to help you stay on top of relocations. Scan user agreements, drivers' licenses, photos and other documents and associate them with accounts, meters, third parties and landlords. Documents are encrypted and archived automatically.

Powerful Reporting Tools

Although QS/1's reporting tools provide dozens of ready-made reports, their most powerful advantage is you can create your own customized reports easily without IT expertise. Easily perform rate-code studies utilizing historical consumption data to provide a true comparison. You can also export data for use with your favorite software.

Easy to Use

QS/1's products are easy to use. Wizards lead you step by step through creating new accounts, generating work orders, meter change outs and other functions. Excellent navigation tools guide you through the system with minimal effort. Full integration with our Accounting Suite provides you with a complete management solution with the same look and feel, making it easier to learn and use. Help files can be quickly accessed and training is available online allowing you to train employees when it is convenient for you.
